

**Will Hold Public Availability Sessions in July to
keep the public informed About the on-going
cleanup at the Eighteen Mile Creek Superfund
Site in Lockport New York**

.....

SAVE THE DATE!!

WHEN:

**Wednesday, July 29, 2026
from 2 - 4pm or 6 – 8pm
at the
Lockport Town Hall
6560 Dysinger Road
Lockport, NY 14094**

WHEN:

**Thursday, July 30, 2026
from 2 - 4pm or 6 - 8pm
at the
Newfane Community Center
2737 Main Street
Newfane, NY 14108**

If you have any questions about these upcoming sessions, please reach out to EPA's Community Involvement Coordinator for this site, Mike Basile at (646) 369-0055 or basile.michael@epa.gov.

To learn more about the activities at Eighteen Mile Creek and inspect the agency's website visit:
www.epa.gov/superfund/eighteenmile-creek .

At these sessions, the public can interact with individual EPA team members. Posters, diagrams and maps will be provided to show more details about the site.

You may have some questions about such topics as:

- What is the status of the cleanup activities at the former Flintokte Property?
- How is work progressing at Upson Park? When will the work be completed?
- How many residential properties have been remediated in Lockport? How many remain and will the agency continue to sample more properties?
- Understand that more testing will commence later this year on the creek as it flows north to Lake Ontario? What type of activities will the public see?
