Town of Newfane Notice – Sewer District Survey Update

Beginning tomorrow, representatives from **G&G Municipal Consulting**, the Town's engineering and grant consulting firm, will be canvassing residences within the Town of Newfane Sewer District to collect updated information from property owners.

This survey is a follow-up to one conducted approximately five years ago. The updated information is essential to support the Town's current grant applications for improvements to the Sewer District and the Wastewater Treatment Facility.

The previous survey played a significant role in helping the Town secure **more than \$1 million in grant funding** for critical upgrades to the Wastewater Treatment Facility. By participating in this updated survey, residents will help strengthen the Town's ability to compete for additional grant funding, reducing the financial burden on local taxpayers while supporting necessary infrastructure improvements.

We appreciate the cooperation of all Sewer District residents and thank you in advance for your assistance with this important effort.
