Lake Mariner's Sponsorship Helps Light Up Newfane's Independence Day Celebration

NEWFANE, NY – The Town of Newfane is proud to announce that Fluidstack, a tenant at the TeraWulf Inc.- owned Lake Mariner data center, and TeraWulf are each contributing \$20,000 in sponsorship support for the Town's July 3rd Fireworks Celebration, helping ensure that this cherished community tradition continues to bring families, friends, and visitors together from across the region.

“On behalf of the Town Board and the residents of Newfane, I would like to express our sincere appreciation to TeraWulf and Fluidstack for these generous contributions,” said Town Supervisor John Syracuse. “Their support will help preserve and enhance an event that has become a cherished part of our community's Independence Day celebration.”

While much attention has focused on the significant construction activity taking place at the Lake Mariner campus, the project is already generating meaningful economic benefits throughout Newfane and neighboring communities. The hundreds of workers supporting the development have contributed to local businesses by patronizing restaurants, retail markets, gas stations, and small businesses throughout the area. Many have also secured temporary housing locally, providing additional support to the regional economy.

The Town has appreciated the opportunity to work alongside Lake Mariner and its partners on a variety of initiatives associated with the development. One notable example was the transportation and installation of the project's massive electrical transformer, which arrived via Lake Ontario and offloaded at Hedley-Zillig Marina before making its journey across local roads to the project site. The operation represented a remarkable logistical and engineering achievement made possible through coordination among private industry, local government, and numerous community stakeholders.

The partnership between the Town and Lake Mariner demonstrates the positive outcomes that can be achieved when businesses and local governments work together to support economic development while remaining engaged in the communities they serve.

TeraWulf, Inc.'s and Fluidstack's contributions to the July 3rd Fireworks Celebration reflects a commitment that extends beyond investment and construction activity. It demonstrates a willingness to participate in and support the events and traditions that help define the Newfane community.

As residents and visitors gather along the waterfront this Independence Day to enjoy one of Western New York's premier fireworks displays, the Town is grateful for community partners such as Lake Mariner whose support helps make the celebration possible.

The Town of Newfane extends its heartfelt thanks to Lake Mariner, especially TeraWulf Inc. and Fluidstack, and looks forward to continuing a positive working relationship that benefits residents, local businesses, and future generations.
